Qatar's museums and cultural sites offer a variety of innovative, enriching and fun educational programs aimed at enhancing the learning experience for students and teachers. At QM we strive to stay connected to the flourishing formal education sector in Qatar, so that we bring teachers custom-made workshops, activities, conferences and trainings to suit their needs as educators. We also offer activities for individuals and families that can enhance their leisure time by learning about the world around them in an engaging, hands-on manner.

All of our activities align with the Supreme Education Council Professional Standards for Teachers and the National Curriculum Standards.

If you would like to book a visit to any of our activities please contact the relevant museum/ department directly for an appointment. All of our programs are free of charge and spaces are limited.

The Cultural Heritage Education team at QM strives to bring the rich history of Qatar to life by providing students and teachers the opportunity to visit heritage sites across the country and experience the archaeology process, surveying, excavation and restoration. The main objective of the Department of Archaeology is the educational Point of View: Working to achieve and spread archaeology awareness in the community.

**ARCHAEOLOGY &  
POTTERY  
RESTORATION  
WORKSHOP**

Age: 7-12

LOCATION: School Site

Students will learn the basics of archaeology and pottery restoration, and take a workshop on flint stone. They will participate in a pottery workshop, followed by a lecture on archaeology and archaeological survey.

Throughout the visit the students will practice the archaeological survey process. Finally, the students will have the option of visiting the UNESCO Heritage site, Al Zubarah, where they will go on a tour of Al Zubarah fort and to the archaeological town of Al Zubarah.

---

### **FIELD SURVEY**

LOCATION: On-site

Students are introduced to field survey by searching for artifacts, recording them and using special tools. This exercise aims at spreading the spirit of cooperation, teaching students the importance of reporting any found pieces to the appropriate authority.

### **FIELD VISITS TO AL-ZUBARAH FORT**

LOCATION: Al Zubarah Fort

The aim is to revive archaeological sites and let future generations learn more about the monuments of our ancestors.

### **EDUCATIONAL LECTURES & SEMINARS**

The goal of these lectures is to teach students the meaning of the monuments, their importance and the way to preserve them.

---

## **FLINT TOOL-MAKING WORKSHOP**

LOCATION: School Site

In this workshop students are introduced to the ancient technique of flint tool making and to learn how people in the prehistory in Qatar used flint rock stone to create sophisticated tools essential to hunting, preparing food and making clothing. Then students will have the opportunity to make flint arrowheads by themselves.

## **EXCAVATION SQUARE**

LOCATION: On-site

An experimental archaeological site has been set-up and embedded with pieces of pottery to provide students with a project-based learning experience in how to professionally dig up objects during an excavation. This exercise teaches students how, why and when an excavation should take place, as well as the process and tools used in excavations.

## **AL ZUBARAH ARCHAEOLOGICAL TEAM (UNIVERSITY OF COPENHAGEN)**

Al Zubarah, Qatar's first UNESCO World Heritage Site welcomes pre-booked school tours. Due to the outdoor nature of these tours they run only in the winter months from October to April. Typically a day trip to us for one or two classes (around 35 people maximum), would last from 9:00 am till 12:00 pm, or from 10:00 am till 2:00 pm, including: a tour of Al Zubarah Fort, a short lecture, a chance to see and handle some of the artifacts and then a visit to the excavation area in the town itself. We tailor our tours to the age of your pupils, and we have received positive feedback from primary level through to university students. Currently guided tours are only offered in English.

### **AL ZUBARAH ARCHAEOLOGICAL SITE VISIT: EXHIBIT, SITE VISIT, LECTURE, WORKSHOP**

Ages: 6–18 years old

Location: Al Zubarah

The Al Zubarah Archaeological Site Visit is the chance to go on a tour of Al Zubarah Fort with an archaeologist. Students will receive a lecture in our schools tent about Al Zubarah Old Town and the work of the archaeologists. They will also get a chance to interact with archaeological artifacts, visit the park and archaeological site where the "Palace" excavations occurred, and walk through the old town. By bringing your students and children to the Al Zubarah Archaeological site, we hope to help build awareness about Qatar's past, while also expanding knowledge and interest in the role of archaeology among local communities. Collectively we hope to facilitate a better knowledge & interest in Al Zubarah, Qatari history, life in the past, daily life, and the economy.

Mathaf's Education Programs offer ongoing learning opportunities for children, students, families and adults. Welcoming the unique experience of each individual, we facilitate dialogues that illuminate connections across perspectives, disciplines, and histories of art. Drawing inspiration from modern and contemporary art and artists, our museum setting serves as a unique forum in which to have meaningful discussions.

An emphasis on creating a safe environment, in which learning takes place, enables visitors to confidently take risks, ask questions, and gain a sense of belonging to a creative community. We invite visitors to meet artists face to face, explore interdisciplinary connections, and join the conversation about modern and contemporary art by making the museum their own creative space.

The Mathaf Student Art Competition and Exhibition is an annual event that celebrates the creativity of K-12 students in Qatar, and encourages students, teachers and parents to explore modern and contemporary art together. This competition follows the great success of the second annual "Mathaf Student Art Exhibition: Black and White." This annual competition is a result of a student art competition that was launched by the Education Department at Mathaf in the fall of 2013. All schools in Qatar were invited to participate, and the museum received over 300 submissions from schools both within and outside of Doha. Students created work inspired by the theme, black and white. The selected winning works were presented during a public opening on May 24, 2014 to celebrate the artistic expressions of Qatar's students. A catalogue of the exhibition is due for release in the fall. The Mathaf Education Department is now preparing for the 3rd installment of the competition for the new academic year, which will focus on Modern Arab Art from Mathaf's permanent collection.

The Qatar National Museum opened in 1975 in a restored palace originally built in the early 20th century by Sheikh Abdullah bin Jassim Al Thani. This splendid monument to Qatar's past is now preserved as the heart of the new National Museum of Qatar.

The new museum's innovative design was created by eminent architect Jean Nouvel and is inspired by the desert sand rose. This unprecedented 21st century institution will celebrate the culture, heritage and future of Qatar and its people. The National Museum of Qatar is currently closed and under construction. Please join our ongoing school outreach and community programs.

### **SCHOOL OUTREACH WORKSHOPS & PROGRAMS**

The National Museum of Qatar offers onsite, school workshops created and presented by professional educators. We travel to your classroom and offer a range of curriculum-based educational workshops for different ages and abilities, in both Arabic and English.

**Free, booking required.**

**THERE ARE A RANGE OF 45 MINUTES WORKSHOPS TO CHOOSE FROM:**

**THE 2ND ANNUAL  
MAL LAWAL**

Under the patronage of Her Excellency Sheikha Al Mayassah Bint Hamad Bin Khalifa Al Thani, QM will host the second Mal Lawal exhibition, taking place from November 2014 to January 2015 in the Qatar International Exhibition Center. The theme of the exhibition is "Collections," reflecting the personal collections of collectors across Qatar and the GCC.

The National Museum will be supporting this prestigious event through the delivery of the following three educational workshops to schools:

**TREASURE CHEST**

Language: English & Arabic  
Age: 5-7 years  
Duration: 50mins  
Location: Outreach program

Students will discover that an object can deliver a message. They will recognize that a single object can be a part of a collection of objects. How can an object from a collection be described? Students will describe the objects from the collection using their senses; what does the object feel like? Does it make a sound? What can I see? Students will identify what a collection is and how a single object can be returned to a collection. They will discover how a treasure chest has a purpose of storing a collection of special objects. They will be shown images of examples of collections and be encouraged to start their own, or a class collection. Finally, they will create their own "picture message" of which object they will choose to start their own collection, decorate a bottle and place their message in the bottle.

---

## **MY PEARLS**

Language: English & Arabic

Age: 8-11 years

Duration: 50 mins

Location: Outreach program

In the workshop, "My Pearls," students will learn about the daily life of a pearl diving crew on a dhow and the difficult situations they face. They will be taught about navigation tools such as maps, and how they are used for routing. They will also be introduced to the songs and poems that pearl divers traditionally sing on board a dhow. By the end of the workshop students will be able to recognize the local names of crew divers and the role of each crewmember. The workshop will culminate with students extracting their own pearl from the shell of an oyster.

## **I AM A COLLECTOR**

Language: English & Arabic

Age: 12-17 years

Duration: 50 mins

Location: Outreach program

Students learn how objects in museums can tell different stories, including the story of a nation, or the story of important historical figures. They will study the qualities of leadership by "curating" an exhibition for the group, while also gaining an understanding of how collecting, selecting, displaying and caring for objects, contribute to the stories told. Students will be introduced to some of the content that will be found in the new museum, and be inspired to visit a museum.

## **DHOWS FESTIVAL**

Language: English & Arabic

Age: 5-16

Duration: 60 mins

Location: Katara

This event takes place over two days. Students will be able to tour five different stations. At each station, staff will demonstrate an aspect of the science of Dhows and how they are sailed. They will learn about buoyancy, sail shapes, navigation, and the effects of diving on the crew. The demonstrations will be adapted for different age ranges and will link with classroom learning.

## **LITTLE DISCOVERY MUSEUM**

Ages: 18 months-3 years

Date: August, on-going

Location: On-site Nurseries and  
Pre-schools

This educational workshop will be launched in August and be an ongoing program for children from 18 months to 3 years to support brain development. Children will develop language and communication skills and learn about objects using their senses. Young learners will explore "Discovery Baskets" containing a range of collections to touch and interact with. The 30-minute workshops will be held at local nursery and preschools. The nursery schools will be encouraged to invite the children's parents to the workshops to support their young child's learning and development.

---

**NMOQ EDUCATION WORKSHOP FOR TEACHERS “HOW MUSEUM EDUCATIONAL WORKSHOPS CAN SUPPORT CHILDREN’S LEARNING AND THE CURRICULUM”**

Language: English & Arabic

Ages: Teachers

Date: October-December

Location: On-site at schools

This workshop is designed to support teachers of students from KG to Primary age range in understanding the purpose of NMoQ Educational workshops, the links to the curriculum and how educational workshops can be integral in supporting children’s learning. We offer flexible timings for this two-hour workshop to link with a school’s professional development timetable.

**THE DESERT ROSE**

Language: English & Arabic

GRADES: KG -Grade 2

Duration: 50 mins

Location: School outreach

Students learn about the innovative design of the new National Museum of Qatar, inspired by the desert sand rose. They will compare observations of a real rose and a desert sand rose. They will then discover that the desert rose is made from crystals formed under the ground as a result of a certain process. Students will be introduced to the new National Museum; view images, and watch a film of the new design and learn some key facts about its purpose. Finally, the students will create their own desert rose.

## **SCHOOL PROGRAMS**

### **SCHOOLS OUTREACH 1001 INVENTIONS – “SCIENCE FROM MUSLIM CIVILIZATION EDUCATION PROGRAMS”**

Language: English, Arabic and Portuguese

GRADES: All grades

Date: Launches in Doha in May 2014 and continues to Brazil during September 2014.

Location: Online and on-site in schools across Qatar and Brazil

“1001 Inventions” uncovers a thousand years of scientific and cultural achievements from Muslim Civilizations from the 7th century onwards, and how those contributions helped create the foundations of the modern world.

Developed this year in Portuguese for Brazilian schools and teachers, an online toolkit and in-classroom program will explore the cultural and scientific influences that resulted from Arab-Latin American exchange over the centuries, and highlight Arab influence in the field of science.

This year’s program is aimed at Brazilian students, while educators in Doha can get involved online at <http://www.1001inventions.com/education> and [www.qatarbrazil2014.com](http://www.qatarbrazil2014.com). Download the English, Arabic and Portuguese toolkits starting in Summer 2014
